

The Ladies Board of Inova Loudoun Hospital
Corresponding Secretary Report
January 2025, Presented February 4, 2025

We are a strong and resilient group, always mindful of the well-being of our members. Recently, we came together in support of Darby Nelson-Folk, Joyce Carman, Verla Page, Sheila Brooks, and Nancy Epperson. We also continue to keep Carole Baker Powers close to our hearts.

Whether it was a personal health concern and healing journey, profound grief from a loss, or uncertainty related to a medical diagnosis, our hearts have been—and still are—with them. It is our sincere hope that they all feel the comfort and love of our collective support, knowing they are surrounded by a community of women who care deeply.

Additionally, heartfelt thanks were extended to Suzie Quinn, Dr. McCabe, and Peter from Inova's IT team for their generosity in hosting our Leadership Team during a tour of the new pediatric unit on the 6th floor. The opportunity was both informative and a testament to the commitment and high standards of excellence at Inova.

We are truly a group of compassion.

Please don't hesitate to reach out if you have something to share, whether in caring or celebration. You may want to add my contact information to your contacts list to ensure my messages are not sent to your junk folder and to have easy access if you wish to reach out.
